

Introducing **BETTERSHIELD**

the Revolutionary New Disposable Faceshield from Medonyx Inc.

USERS SAY:

"From the beginning, I recognized the unique, unmatched benefits of BetterShield."

*- Dr. Kevin Katz
North York General Hospital, Toronto*

Why is it called **BETTERSHIELD**? *

Reason #4

Old-fashioned "Flat Sheet" FaceShield

BetterShield, new by Medonyx

OLD WAY

Traditional "flat sheet" disposable Face Shields just can't prevent germs entering from below - leaving HCWs exposed.

BETTER WAY

BetterShield's patent-pending **contoured lower-face protection** means superior droplet-borne pathogen protection, even in close quarters.

*** Because we couldn't really call it the**

So Much Better In Every Which Way™ SHIELD.

BETTERSHIELD BASICS:

AIRFLOW + VENTILATION
Vents let hot air escape.

BIG GLASSES? No problem!
GOGGLES? No problem!
N-95 MASK? No problem!

DISTORTION-FREE OPTICS. See? →

Advanced ANTI-FOG film technology →

3D-CURVED DESIGN:
If your head has a curve, so should your shield! →

100% LATEX-FREE
& Hypo-allergenic, too.

ADJUSTABILITY:
Change visor angle by adjusting elastic

SECURE FIT: Doesn't interfere with chest or dislodge. Reaching an arm across also won't knock it loose.
Go ahead, shake your head!

Introducing **BETTERSHIELD™**

"We like BetterShield for its superior protection, anti-fog, and better fit. But mostly, we like it because our staff far prefers it over the alternatives."

- Dr. Allison McGeer
Mt. Sinai Hospital, Toronto

Better how?

Better Shielding: Innovative and patent-pending, our unique **3D CURVED DESIGN** provides unmatched droplet-borne protection, even on sides and bottom of the face.

Better Anti-Fog: New state-of-the-art Anti-Fog optical surface technology means that HCW's can focus on looking at their patients, not their breath!

Better Fit: One-Size-Fits-All doesn't just happen: extensive design and testing has yielded a premium faceshield that securely fits the widest range of users. Even *big hair* is no problem - go ahead, use your hairspray!

Better Liked: Multi-site, multi-ward hospital testing revealed that HCW's prefer BetterShield over the nearest competitor by more than **300%***. That's Better!

Better Storage: We know your storage space is at a premium. That's why BetterShield was designed for ultra-compact stacking. Now you'll need to figure out what to do with all that left-over shelf space.

Better Supply: BetterShield is 100% made in North America, meaning quality, consistency, and speed of delivery.

Better Price: Premium performance shouldn't come with a premium price-tag. That's why with BetterShield, your purchasing department will see it's better, too.
