

gelFASTTM anywear

... when you are serious about hand hygiene.

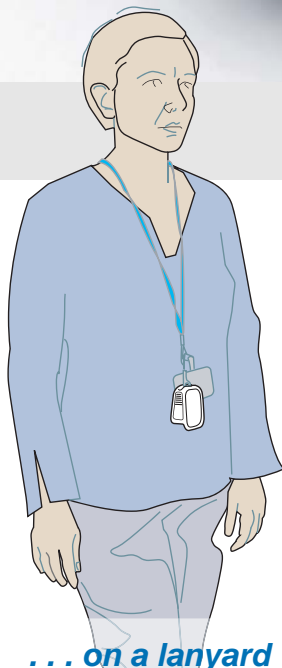

Increase Hand Hygiene Compliance with gelFASTTM anywear

- gelFAST Anywear - Hand Hygiene Wearable
- Clinically shown to significantly increase hand hygiene frequency among caregivers.
- Small, pager-sized unit includes reusable holster and disposable cartridges.
- Cartridges contain 38.6 ml of 70% ethyl alcohol, enough for one full intensive-contact shift.
- Helps make better hand hygiene a strong habit.

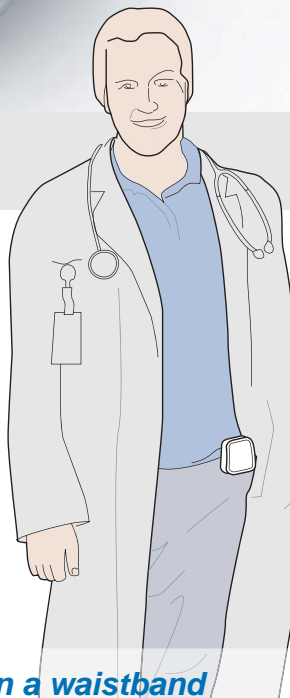

gelFAST Anywear: personal wearable alcohol gel dispenser makes better hand hygiene a solid habit.

Meet JCAHO Patient Safety Goals with gelFASTTM anywear

HOW TO USE

1 second

Need it: When hand hygiene is indicated, gelFAST is ready, always in the same place, always available.

Do it: gelFAST is always accessible - one quick squeeze puts antiseptic gel exactly where you need it.

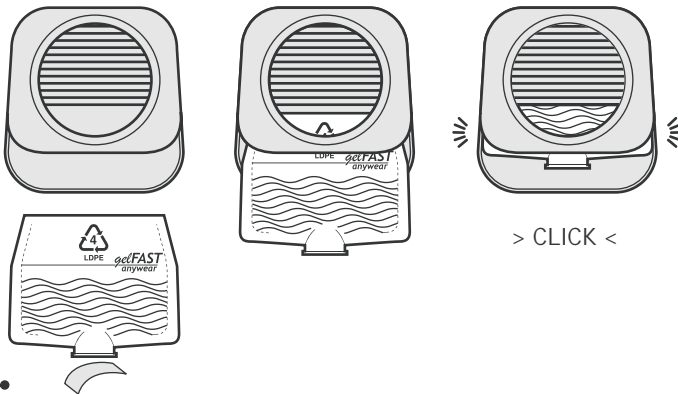

Done: Rub hands together as alcohol gel evaporates. Cleaned hands are ready for safer patient care.

FEATURES & BENEFITS

Easy to use:

- Simple operation allows for rapid training, fast wide-scale clinical deployment.
- Cartridge insertion is rapid and easy: Peel off liner, insert into holster, and go.

Wearability:

- Light weight and ultra-compact size.
- Attractive design in choice of colors promotes user adherence, increasing hand hygiene frequency.
- Innovative design allows for maximum flexibility in use. gelFAST Anywear can be worn on:

- waistbands
- belts

- coat pockets
- lanyards

Cartridge:

- Contains 38.6 ml antiseptic alcohol gel.
- Each cartridge designed for one full work shift of intensive use.
- Innovative, integral no-drip valve.

Antiseptic Gel

- Developed for optimal, ongoing caregiver acceptance.
- **70% Ethyl alcohol** active ingredient.
- **Multiple skin conditioners** keep hands in excellent shape during intense use, resulting in high clinical acceptance rate.

Environmentally Friendly:

- Minimal waste: Each empty cartridge weighs only 1/4 ounce.
- **Fully recyclable** cartridge.
